OUTLINE AND GUIDE FOR THE EVASION GEOGRAPHY

I. PURPOSE

1. This geography is designed to provide Evasion and Escape personnel at all levels of command with basic reference material applicable to the planning, briefing, and conduct of Evasion and Escape.

II. SCOPE

2. The information contained in this geography is of a basic, semipermanent nature and is intended for utilization in conjunction with current intelligence. Arrangements and treatment of contents have been directed towards describing and illustrating the natural and cultural features of the country and the manner in which such features bear on Evasion and Escape activities.

3. No attempt has been made to include specific recommendations as to courses of action, techniques, or procedures to be followed by evaders or escapers where such activities might be subject to change as a result of a current situation. Such recommendations must of necessity be determined in accordance with intelligence available at the time.
